Astrology-Life Sessions

Astrology-Life consultations are based on the western astrological system (tropical and sidereal) and are integrated with my intuitive/psychic abilities, allowing me a deeper penetration into the vast range of information available from the astrology data (or beyond). You will experience a uniquely customized astrological analysis that is divinely focused to your exact needs.

Initial sessions are \$250 for two hours, \$300 for three hours (maximum session length), and after your initial session, **Follow-up** sessions are \$100 for each additional one-hour. **Single Question** consultations are \$25 for around 15 minutes. All payments must be received in advance of the session's start (payment method can be negotiated).

In scheduling a date and time for a session, please keep in mind it generally takes about 48 hours, sometimes more/less, to prepare the astrology data and conduct the necessary research prior to your consultation. Our sessions can be in person or conducted remotely by phone, over Skype/Zoom, or other computer messaging app. Communicating via Skype is preferred as it allows me to quickly provide you with a quality recording of the session afterwards.

To ensure the most appropriate birth data is used in the session, please provide me with the following information that has been OFFICALLY RECORDED (typically from a Birth Certificate):

- 1) Birth Name
- 2) Birth Date
- 3) Birth Time
- 4) Birth Location (such as a city and state in the USA or elsewhere)

If you don't have a Birth Certificate, please state the source of the data. Along with your birth information, you can submit up to five questions for us to explore in the session. It's important to write down the date/time/location when you first begin formulating the questions and include that information with your submittal.

Before the session begins, you will be provided via email PDF copies of all the astrology charts generated for your Astrology-Life consultation. It is HIGHLY ADVISED that you personally check the accuracy of the birth data on the charts before we begin. Please notify me promptly of any errors you find. I will refer to those charts frequently in your session, so they must be accurate.

When asked to explore topics that require additional time to prepare or discuss, such as physical relocation and relationships, the session may need to be expanded, resulting in additional fees. Also, please keep in mind that relationship discussions during sessions that pertain to someone other than a client's legal minor child, requires that individual's permission for me to examine their personal astrological information and discuss it openly with a client.

Lastly, I would like to assure you any personal information you provide will be maintained STRICTLY CONFIDENTIAL at all times. Unless otherwise agreed upon in advance, I will only share a client's personal information with that client.

If you have any questions, would like further information, or wish to schedule an Astrology-Life session with me, feel free to email at dan@dlbrock.com.
