

## Dan L Brock

### Astrology Consultation Sessions

All astrology consultation sessions (**Earth Life** or **Cosmic**) are based on the western astrological system (tropical and sidereal) and are integrated with my intuitive/psychic abilities. These skills allow me to access the vast range of spiritual information available from the universe that complements the physical astrology data. You will experience a uniquely customized astrological analysis that is divinely focused to your exact needs.

For a description of the difference between the **Earth Life** and **Cosmic** astrology session types, please refer to my website page on [Astrology Sessions](#). Please note that a **Cosmic** astrology session generally requires prior access to a **Star Ancestry** report. See the section below pertaining to that requirement.

The following types of sessions (up to a maximum single session length of three hours) are available:

**Initial**, \$100 for a one-hour **Earth Life** or **Cosmic** astrology session.

**Basic**, \$200 for a two-hour **Earth Life** or **Combination (Earth Life and Cosmic)** astrology session.

**Follow-up**, \$100 for each one-hour follow-up astrology session

**Single Question**, \$25 for a single question consultation, which is around 15 minutes duration (at least one prior one-hour Initial session is required)

All payments must be received in advance of the session's start. Cash or check payments are preferred, my mailing address is at the bottom of the email Newsletter, but I also accept payment via PayPal (my account is biz@dlbrock.com). The payment method can be negotiated.

When scheduling a date and time for your session appointment (using Setster), please keep in mind it generally takes me about 48 hours, sometimes more/less, to initially prepare the astrological data and conduct any necessary research prior to your consultation. For Follow-up and Single Questions sessions, this time restriction may not apply.

Our sessions can be in person or conducted remotely by phone, such as over Skype or Zoom, or another computer/phone messaging app (Signal for example). Communicating via Skype is always preferred as it allows me to quickly and easily provide you with a quality MP3 recording of the session afterwards.

To ensure the most appropriate birth data is used in the astrology session, please provide me in an email the following information that has been OFFICALLY RECORDED (typically from a Birth Certificate):

- 1) Birth Name (both your current name and birth name)
- 2) Birth Date
- 3) Birth Time
- 4) Birth Location (such as a city and state in the USA or elsewhere)

If you don't have a Birth Certificate, please let me know the source of the birth data you have available.

Along with your birth information, for any Basic session, you can submit up to five questions for us to explore in your session. It's important to include the date/time/location when you first formulated a question and include that information with your birth data. If you have scheduled something other than a Basic astrology session, the number of questions I can explore may be more limited. Please communicate with me regarding the nature of your request(s).

Before our astrology session begins, you will be provided via email PDF copies of all the astrology charts generated for your consultation. It is **ABSOLUTELY CRITICAL** that you personally check the accuracy of the birth data on the charts before we begin. Please notify me **PROMPTLY** of any errors you may find. I will refer to these charts frequently in your session, so they must be accurate.

When asked to explore topics that require additional time to prepare or discuss, such as physical relocation and relationships, the session may need to be expanded, resulting in additional fees (such adding as a Follow-up session to your appointment).

Also, please keep in mind that relationship discussions during sessions that pertain to someone other than a client's legal minor child, requires that individual's permission for me to examine their personal astrological information and discuss it openly with a client. Simply saying "They are OK with it." Is not sufficient. The accuracy and inner personal nature of astrology sessions requires this accommodation.

Please note that before any **Cosmic** astrology session with me, it is highly recommended that you begin your journey by acquiring a **Star Ancestry** report from Adona for us to examine. It's easy to get in touch with Adona at [starancestry.com](http://starancestry.com) and seek out her **Star Ancestry** report services. I am able to work astrologically with any of the report types she offers. If you have any questions about any of this process, please let me know.

Lastly, I would like to assure you any personal information you provide will be maintained **STRICTLY CONFIDENTIAL** at all times. Unless otherwise agreed upon in advance, I will only share a client's personal information with that client.

If you have any questions, would like further information, or wish to schedule an astrology session with me, feel free to email at [dan@dlbrock.com](mailto:dan@dlbrock.com).
